GATHA GLOBAL TRADERS
The Passport for Your Product

Welcome Message

Dear Valued Partners & Customers,

Preserving the natural ecosystem will remain a topic of discussion unless we recognize its importance as a global mission and integrate it into our daily lives. Gatha Global Traders is proud to support this mission by offering products made from one of nature's most sustainable and eco-friendly resources: COCONUT.

Our manufacturing partners in southern India play a vital role in achieving this mission. From premium Coconut MCT Oil to Organic Desiccated Coconut, we provide a diverse range of coconut-based food products suitable for various applications.

Our global reach allows us to share these eco-friendly products with markets worldwide, and we are dedicated to maintaining the highest standards of quality and service. Each product is a testament to our dedication to environmental stewardship and our passion for providing sustainable solutions.

Thank you for your continued trust and partnership. Together, we can make a meaningful impact and pave the way for a greener future.

ORGANIC COCONUT MCT OIL

Our Organic Coconut MCT Oil is derived from the dried white kernel of mature coconuts cultivated in the Western Ghats of Tamil Nadu, India. The oil undergoes a natural, chemical-free process involving fractionation and molecular distillation, ensuring exceptional purity and premium quality.

Rich in medium-chain triglycerides (MCTs), particularly Caprylic (C8) and Capric (C10) acids, this oil offers a fast-acting energy source, supports metabolic function, and promotes cognitive health.

PACKAGING SIZES

Bulk: 1000L IBC tanks,
200L drums
Medium: 25L and 5L Cans

FEATURES

- High in MCTs (C8 & C10) – boosts metabolism and energy
- Odorless & Flavorless – perfect for food, drinks, or direct consumption
- Supports Weight Loss, Brain Health & Gut Health

CERTIFICATIONS

USDA Organic (NOP), NPOP Organic (India), EU Organic Equivalent, Fairtrade Certified, BRCGS, FSSC 22000, HACCP, and HALAL

SUITABLE FOR

- Ketogenic and paleo diets
- Skincare and haircare formulations
- Functional food and beverages
- Quick Absorption & No Additives or Preservatives

LAURIC ACID

Lauric acid is the most dominant fatty acid in coconut oil, giving it its antimicrobial, antiviral, and health-promoting properties. Virgin coconut oil (VCO) from India, especially from southern regions like Kerala and Tamil Nadu, usually has the **highest lauric acid levels, often around 50%**, due to superior copra or fresh coconut quality and cold-press extraction methods.

Here's a quick breakdown:

Fatty Acid	Value in %
Lauric acid (C12:0)	45-53%
Myristic acid (C14:0)	16-21%
Palmitic acid (C16:0)	7-10%
Caprylic + Capric acids (C8:0 + C10:0)	8-10%
Oleic acid (C18:1)	5-8%
Stearic acid (C18:0)	2-4%

MORE THAN

50%

VIRGIN COCONUT OIL

Our Virgin Coconut oil is cold-pressed from fresh, organic coconuts grown in the Western Ghats of Tamil Nadu, India. Sourced through Fairtrade and our organic-certified farms, the oil retains its natural nutrients and is rich in MCTs, antioxidants, and polyphenols—ideal for health, beauty, and culinary applications.

Nutritional Content: Medium-chain triglycerides (MCTs) including caprylic (C8), capric (C10), and lauric (C12) acids. Natural antioxidants: tocopherols, flavonoids, polyphenols

PACKAGING SIZES

Bulk: 1000L, 200L, 50L,
25L, 5L

Retail: 250ml, 500ml, 1L

FEATURES

- Boosts immunity, metabolism & cognitive health
- Ideal for skin, hair, and high-heat cooking
- Antimicrobial, anti-inflammatory, nutrient-rich
- Sustainably sourced & eco-friendly packaging

CERTIFICATIONS

USDA Organic (NOP), NPOP Organic (India), EU Organic Equivalent, Fairtrade Certified, BRCGS, FSSC 22000, HACCP, and HALAL

GRATED FRESH COCONUT

Grated Fresh Coconut is made from carefully selected mature coconuts, finely shredded to preserve its natural flavor, aroma, and texture. It is widely used in culinary applications such as curries, chutneys, desserts, confectionery, and bakery products, adding authentic tropical richness to every dish.

FEATURES

- 100% natural, fresh, and aromatic
- Available in fine, medium, or coarse grades
- Hygienically processed and frozen for extended shelf life
- Free from additives and preservatives

PACKAGING SIZES

200 g, 400 g, 454 g, 1 kg (retail packs) and bulk cartons for frozen exports.

HEALTH BENEFITS

- Rich in MCTs, dietary fibre, and minerals like manganese and copper.
- Supports digestion, boosts metabolism.
- Provides natural, healthy fats.

COPRA – DRIED COCONUT KERNEL

Copra is the dried kernel of the coconut, widely used for extracting coconut oil and as a key ingredient in food, cosmetics, and pharmaceutical industries. India is one of the leading producers and exporters of high-quality copra, sourced mainly from southern coastal regions like Kerala, Tamil Nadu, and Karnataka.

FEATURES

- 100% natural and chemical-free
- Rich in healthy fats and dietary fiber
- Boosts immunity and supports heart health
- Excellent source of energy and nutrients
- Long shelf life with proper drying and packaging

PACKAGING SIZES

25 kg, 50 kg, and 100 kg gunny bags or PP woven sacks, depending on buyer requirements.

APPLICATIONS

- Copra is primarily used in oil extraction, confectionery, bakery products, and animal feed.
- It is also used in the cosmetic and skincare industries for producing natural oils, soaps, and hair care formulations.

ORGANIC DESSICATED COCONUT

Our Organic Desiccated Coconut is made from the white kernel of mature coconuts grown in Tamil Nadu's Western Ghats. It is processed using traditional and hygienic methods and offers a natural, gluten-free, nutrient-rich ingredient ideal for food and health applications.

FEATURES

- Rich in MCFAs for energy & metabolism
- Gluten-free and mineral-rich (iron, zinc, potassium)
- Ideal for baking, snacks, and cooking
- Ethically sourced with full traceability
- Sustainable, eco-friendly production

CERTIFICATIONS

USDA Organic (NOP), NPOP Organic (India), EU Organic Equivalent, Fairtrade Certified, BRCGS, FSSC 22000, HACCP, and HALAL

PACKAGING SIZES

25 kg bulk bags
Custom options available

SPECIFICATION

Process: Paring, sterilization, shredding, and drying at 60-75°C in a hot air fluid bed dryer to achieve a moisture content below 2.5%.

Oil Content: 68-72%

Moisture: <2.5%

Sugar: 6-7% (mainly sucrose)

Primary protein: Globulin

COCONUT SUGAR

Our Organic Coconut Sugar is made from the sap of coconut palm flower buds grown in our certified organic farms in Tamil Nadu, India. Produced using traditional methods, it retains natural minerals and offers a healthy, unrefined alternative to regular sugar.

PROCESSING METHOD

- Traditional sap collection using bamboo tubes or clay pots
- Heating to concentrate sap into a caramel-like consistency
- Crystallization through continuous stirring
- Cooling and packaging

FEATURES

- Nutritional Content: Iron, calcium, potassium
- Glycemic Index: Low

PACKAGING SIZES

Bulk: 20 kg bags
Retail: 200g, 500g, and 1kg packs
Customizable packaging upon request

CERTIFICATIONS

USDA Organic (NOP), NPOP Organic (India), EU Organic Equivalent, Fairtrade Certified, BRCGS, FSSC 22000, HACCP, and HALAL

COCONUT MILK POWDER

Organic Coconut Milk Powder is a high-quality, vegan-friendly alternative to dairy, produced from freshly-squeezed coconut milk. It contains 65% coconut oil content and retains much of the nutritional content of the raw coconut. It's high in lauric, capric, and caprylic acid – many of the medium-chain fatty acids present in coconut oil.

FEATURES

- 100% Pure and Natural Source
- Dairy and Gluten Free
- Cholesterol Free
- No Preservatives
- No Additives
- No Artificial Flavours or Colors
- Vegan

APPLICATIONS

Milk substitute, cooking, thickening agent, beverages, curries, sauces, smoothies, puddings, desserts, ice cream, yogurt, bakery, and confectionery.

PACKAGING SIZES

250g, 500g, 1Kg, 5Kg, and 20Kg.

HEALTH BENEFITS

- Helps maintain electrolyte balance
- Rich in antioxidants
- Aids in weight loss
- Supports heart health
- Strengthens the immune system
- Prevents anemia
- Promotes healthy hair and skin
- Possesses anti-inflammatory properties
- Supports gastrointestinal health
