# HDF-BASED EMBOSSED BOARD

We offer embossed panels on HDF sheets at the semi-cure stage, ensuring deeper embossing (up to 0.6mm) and superior finish compared to conventional MDF panels. A smooth, glossy surface with sharp detailing is achieved using advanced European technology and chrome-plated molds.

The panels we offer have a density above 850kg/m<sup>3</sup>, providing better paint efficiency and stronger bonding on any substrate. Produced entirely in-house with DOME technology, moisture is evenly distributed, resulting in stable panels with reduced paint usage.

The molecular structure and internal bonding remain intact due to semi-cure embossing, offering greater durability and performance. We provide a wide range of more than 32 elegant designs, ideal for polishing, painting, membrane, and PVC film pressing applications. Our most popular designs are listed in the following pages.

Parameter	Details
Thickness	2.3 mm
Core Material	HDF
Panel Size	8ft (2440mm) x 4ft (1220mm)
Designs	More than – Designs in Raw Finish
Available In	Raw Unpolished
Polish Type	Dual Tone with Antique Effect / DUCO Finish / PU Finish can be given.
Fixing	Similar to the way veneer is fixed.
Applications	Wall/Ceiling Cladding, Shutter Cladding & Furniture Embellishments
